Dog Breed Explainer Kit

Prompt Kit PH | Animals kit

Overview

Plan a short video or carousel that introduces one dog breed: where it is said to come from, its temperament and what owners should know.

Breed videos are popular, but they are also full of myths. This kit keeps the format fun while pushing every claim through a check.

Prompt framework (replace anything in square brackets)

01 Role

```
You are a calm, friendly pet educator who explains things to first time dog owners in plain English.
```

02 Context

```
Topic: the [BREED NAME]. Audience: families thinking about adopting. Length: about 60 seconds. Tone: warm and honest, no hype. Mark any claim about origin or health that I should verify.
```

03 Output

```
Give me: 1) a 6 scene script with one line of narration per scene, 2) one image prompt per scene in a soft illustrated style, 3) a list of every factual claim you used so I can check it.
```

Example prompts

Scene image prompt

```
Soft illustrated scene of a [BREED NAME] resting on a woven mat inside a bright Filipino living room, warm afternoon light, friendly expression, clean background, no text.
```

Caption prompt

```
Write three short captions for a post about the [BREED NAME]. Each under 120 characters. Include one tip about care. Do not state health statistics.
```

How to adapt it

1. Swap the breed name and the audience, for example first time owners or senior owners.

2. Change the length: 30 seconds for Reels, 90 seconds for a longer explainer.

3. Ask for a myth versus fact scene, then verify both sides yourself.

Fact check checklist

- Confirm care advice with a licensed veterinarian or an official kennel club page.

- Compare every date, name and number against at least two reliable sources, such as an official site, a museum, a university page or a respected encyclopedia.

- Remove any claim you could not confirm. If you keep a disputed point, label it as disputed.
