Dwarf Planet Origin Map Kit

Prompt Kit PH | Space kit

Overview

Tell the story of a distant dwarf planet, like Eris, Pluto or Ceres, from discovery to what is still unknown.

Small far away worlds have fewer confirmed facts, which makes careful wording even more important. This kit leans into the mystery honestly.

Prompt framework (replace anything in square brackets)

01 Role

```
You are a space storyteller who is honest about what scientists do not know yet.
```

02 Context

```
Topic: the dwarf planet [NAME]. Audience: general viewers. Length: about 75
seconds. Include a scene about open questions. Mark every number for verification.
```

03 Output

```
Give me: 1) a 5 scene script, 2) one space map image prompt per scene, 3) a list
of numbers and dates to check.
```

Full prompt (copy and paste this)

```
You are a space storyteller who is honest about what scientists do not know yet.
Topic: the dwarf planet [NAME]. Audience: general viewers. Length: about 75
seconds. Include a scene about open questions. Mark every number for verification.
Give me: 1) a 5 scene script, 2) one space map image prompt per scene, 3) a list
of numbers and dates to check.
```

Example prompts

Space map prompt

```
Dark space map illustration of a small icy world far from a tiny distant sun,
faint orbit lines, red accent glow, cinematic but calm, no text.
```

Open questions prompt

```
List three open questions about [NAME] in simple words. Do not answer them as
facts.
```

How to adapt it

1. Compare two dwarf planets side by side.
2. Tell it from the point of view of a discovery team, labeled as dramatized.
3. Add an orbit diagram scene.

Fact check checklist

- Confirm discovery dates and sizes with an official space agency page.

- Label dramatized scenes as dramatized.

- Compare every date, name and number against at least two reliable sources, such as an official site, a museum, a university page or a respected encyclopedia.
